Grammar in context 1

Present simple and present continuous

1 Look at the sentences (a-g) and match them to the rules (1-7).

a Some people **are always taking** selfies!
b Psychologists **study** mental processes and human behaviour.
c I **take** selfies at least three times a month.
d Right now, thousands of people **are watching** cat videos.
e Some people **are changing** their minds about the Colour Test.
f Blue and yellow **make** green so my personality is a combination of both.
g She's a researcher at the University of California, but she's **teaching** in Indiana for one term.

We use the present simple for:
1 routines and habits.
2 things that are always or generally true.
3 scientific facts.

We use the present continuous for:
4 actions that are happening now or near the moment of speaking.
5 actions that are temporary or not a normal routine.
6 actions that happen very often and annoy the speaker.

Adverbs of frequency

3 Read the sentences. The words in bold are all adverbs of frequency. Choose the correct alternative to complete the rules in 1-4.

a We don't **usually** watch cat videos.
b They **occasionally** do psychology tests.
c They're **always** watching videos instead of working!
d They **always** give themselves high marks.
e I **never** take selfies.
f They are **rarely** wrong with their predictions.
g She **often** does research.
h You **sometimes** feel shy.

1 Adverbs of frequency usually go *after/before* the verb to be.
2 Adverbs of frequency usually go *just after/before* main verbs.
3 Adverbs of frequency usually go with the *present continuous/present simple*.
4 The adverb of frequency 'always'/'sometimes' goes with the *present continuous/present simple* to talk about frequent actions that annoy the person who is speaking.

Social Media Personality Profiles

How irritating! Some people (a) (always) post things on social media about trivial everyday things like what they (b) (read) at that moment. At London's Brunel University there was a study of the relationship between a person's social media posts and their personality. They found that when a person (c) (often write) about their social activities and everyday life, they (d) (be usually) outgoing.

Annoying people who (e) (usually) show an interest in exploration and new experiences. That's true for my older brother. This term, he (f) (study) at a university in Italy. He (g) (not usually) post photos of himself but he (h) (share) interesting photos and information about other people, places and things. For example, right now I (i) (read) his new post about the place where he (m) (live) at the moment. It's much better than just another selfie with a plate of pasta!

2 Choose the correct alternative. Which rule in 1 explains your answer? There is one example for each rule.

1 Humans **do/are doing** unusual things sometimes! Rule _____
2 At the moment, my brother **plays/is playing** a video game. Rule _____
3 I **watch/am watching** my favourite series every evening. Rule _____
4 This new actor **becomes/is becoming** really famous. Rule _____
5 Sunshine **produces/is producing** Vitamin D and Vitamin D **helps/is helping** to keep you cheerful. Rule _____
6 My mum is a teacher but she **does/is doing** a psychology course this month. Rule _____
7 Not again! My sister **always shows/is always showing** me her selfies! Rule _____
